

Agile Process Tools: A look into Scrum, Kanban and SAFe®

Duration: 2 days LIVE online

Course Overview

This course will only be run as a face to face in-class event when it is confirmed safe to do so.

A lot of people start their experience and knowledge with agile from a method, process, and tool perspective. This interactive training will give participants a healthy view of process tools and give concrete example of Scrum and Kanban.

Participants will get to see and experience what Scrum and Kanban are in action.

Who should attend?

- Scrum Masters
- Product Owners
- Agile Leaders
- Managers
- Agile Team Members
- Anyone exploring agile frameworks like Scrum and Kanban.

Prerequisites & pre-reading guidelines

There are no pre-reading requirements for this course. A preparation workshop involving your stakeholders and our Expleo Agile coaches may be required to understand and define your specific skills gaps and requirements.

How certification is earned

On completion of the course delegates will receive an Expleo certificate.
