

IQBBA Certified Agile Business Analysis (CABA)

Duration: 4 half days LIVE online

Course Overview

Expleo Academy's IQBBA Certified Agile Business Analysis (CABA) course explores the potential for Business Analysis roles in an agile environment. The collaborative training approach provides attendees with coaching and practice of agile business analysis frameworks and techniques, and practical exam-based exercises.

The syllabus is based on the *Agile Extension to the BABOK® Guide*, which was developed in collaboration between Agile Alliance® and IIBA® (International Institute of Business Analysis). The course is delivered by iSQI-accredited trainers with deep experience and practical knowledge of Business Analysis, BABOK and agile concepts.

Who should attend?

The course is relevant to those who want

- a clear understanding of Agile and its applications
- to improve the way their Business Analysts work in Agile projects
- to practice applying effective agile Business Analysis techniques
- to accredit their Agile skills for recognition among employers, clients and peers

This includes Business Analysts, Product Owners, Agile champions, Agile team leaders, BA Managers, IT Managers, Business Change Managers, Project and Program Managers, and Agile team members.

Prerequisites & pre-reading guidelines

There are no course prerequisites. However, the course design assumes a basic understanding of:

- the use of IT systems in organisations
- the systems development process
- the role of a business analyst in systems development

How certification is earned

Certification is dependent on correctly answering 26 out of 40 multiple-choice Exam questions. The Exam is currently delivered online, closed-book, and has a duration of 60 minutes.

Course Objectives

On completion of this training, attendees will be able to:

- Identify the role of the business analyst in Agile software development projects
- Participate in Agile teams developing software
- Articulate the BA's responsibilities to both the enterprise and the Agile team
- Understand and apply the agile business analysis frameworks and principles
- Know BA techniques which enable the delivery of artefacts that add value to the enterprise initiating Agile projects
- Appreciate the importance of, and how to contribute to, continuous improvement through agile processes

Context

Expleo Academy's interactive training of IQBBA Certified Agile Business Analysis provides another step in your agile learning journey. It features in Expleo Academy's Agile Business Analysis T-shaped learning profile.
