

BCS Foundation Certificate in Business Analysis

Duration: 1 full day and 4 half days live online

Course Overview

Expleo Academy's BCS Foundation Certificate in Business Analysis course provides a broad understanding of the concepts, approaches and techniques applicable to business analysis.

This course is delivered by BCS-accredited professional trainers with a depth of experience in business analysis roles. The training delivery approach includes collaborative accelerated learning activities, and quiz style practice questions that give you the opportunity to prepare for the exam.

Who should attend?

The certificate is relevant to anyone requiring a general understanding of business analysis. This includes Business Analysts, Product Owners, Change Managers, IT delivery project roles, business managers, and operational staff.

The course is also aimed at individuals who would like to become accredited in the internationally recognised BCS Foundation Certificate in Business Analysis, on their path to achieving the BCS International Diploma in Business Analysis.

Prerequisites & pre-reading guidelines

There are no prerequisites. However, attendees are advised that the course covers a range of topics from each chapter of the BCS publication "Business Analysis" by Paul, Yeates & Cadle (4th edition). It is recommended that text from syllabus headings * are studied by those preparing to take the exam.

How certification is earned

Certification is dependent on correctly answering 26 out of 40 (65%) multiple-choice questions in an exam. The Exam is currently delivered online, closed-book, and has a duration of 60 minutes. Additional time is available under certain circumstances, which are outlined on the BCS website. Once you have registered for this course, the British Computer Society Exams Office will contact you to explain how you can schedule your online exam.

Course Objectives

On completion of this training, attendees will be able to demonstrate knowledge and understanding of concepts, principles and techniques in the following areas:

- What is business analysis, its strategic context, and the competencies required
- The "business analysis service framework"
- Investigating a business situation, managing stakeholders, and improving processes
- Defining a solution and making a business case
- Establishing, documenting, modelling, validating, and managing requirements
- Delivering the requirements and the business solution

Context

Expleo's interactive training of BCS Foundation Certificate in Business Analysis provides an essential step in your Business Analysis Learning Pathway. It offers one of the certificates required to qualify for the International Diploma in Business Analysis. The content is of value to any business representative or project stakeholder needing a general understanding of business analysis.

Related courses

To qualify for the BCS International Diploma in Business Analysis, you should also attend:

- BCS Certificate in Requirements Engineering
- BCS Certificate in Business Analysis Practice
- BCS Certificate in Modelling Business Processes

The BCS offers you full flexibility when choosing the sequence in which you achieve these certificates.

In general, Expleo Academy recommends that you attend the Foundation Certificate in Business Analysis after completion of the above practitioner courses, if intending to sit the International Diploma exam.

We are happy to discuss your specific training needs to advise on your optimal learning pathway.
